

The Bulletin

Your Weekly News Update from The Suthers School

In Brief:

- ◆ **Our Word of the Week** was 'enrich.'
- ◆ **Is your child eligible for Free School Meals?** You can find out and register With Notts County Council [here](#)
- ◆ **The Brilliant Book Award is coming**—if your child would like a chance to attend the launch event, make sure they've returned their reply slips to Mrs Cunniffe.
- ◆ **Our Christmas-themed Enterprise Challenge** is underway in DT. Looking forward to seeing students' products on sale at Newark Christmas Market next month!
- ◆ **Attenborough** are on the advance—with a brilliant 96 points cashed this week, Attenborough have picked up the most points in the past seven days.

House Point totals for the past 7 days (below) show Attenborough pushing for the lead...

QUESTION TIME FOR OUR LOCAL MP

Students from The Suthers School were given the chance to quiz their local MP, Mr Robert Jenrick, as part of our joint celebration of UK Parliament Week with Toot Hill. Year 7 and 8 students joined forces with their Toot Hill counterparts on Friday to hear the Rt Hon Mr Jenrick speak about his role as an MP for Newark as well as quiz him on a whole range of topics—from careers advice and daily life as an MP to the aftermath of Brexit and the character strengths needed to succeed in politics. All in all, it was a really informative and engaging session and will support the work students will be doing in their Civics lessons in the coming weeks—it may well even inspire some to stand for election for our very first School Council later this term! Well done to all who took part.

CHILDREN IN NEED RAFFLE

Pudsey and Blush are up for grabs in our CIN raffle. Winners to be announced on Monday 19 November. Good luck!

This week students and staff have been hoping to bag the chance to adopt their very own Pudsey or Blush in our Children in Need raffle. The special edition bears come complete with an adoption certificate and rumours have it that Pudsey's bandanna even glows in the dark—bringing an extra touch of comfort to those who need it most.

GETTING TO GRIPS WITH THE WEATHER

This week, Year 8 students have been developing their knowledge of the weather in their first field work lessons of the year in Geography. Students were outdoors using their observation skills as well as getting to grips with the tools weather watchers and meteorologists use such as anemometers (a device used to measure wind speed).
