

## Year 11 | Media- Unit R095

Dear parents/ carers,

I am writing to inform you of the progress of our year 11 lmedia students. Students have been making good progress on unit R095. This unit challenges students to design and produce a comic to be issued to primary children, that promotes the benefits of outdoor play, vitamin D from the sun, and interacting with nature.

The first deadline is fast approaching (Friday 25th October) All students need to have completed the following tasks before half term in PowerPoint:

1. Analysis of the client brief
2. Mind map of potential images associated with the brief
3. Character drawings for the comic- annotated in detail
4. Story board completed an annotated
5. Plot review – description of the story and how well it meets the client brief
6. Script for the comic. Which characters say what, where and when
7. Assets table. A referenced table including all potential images that could be used in their comic.

### Next steps:

Students will continue with their coursework creating digital images of their key characters for the comic. Following this task, they will then use **Comic Life software** to then create their comic. As can be seen from the 100-day plan below, students will work on this up to and after Christmas.

To complete the coursework, it is essential that students attend the after-school intervention sessions. These will be available after half term on **Wednesday, Thursday and Friday**, every week after school in either B8 or B7 until 4pm. As we get closer to the coursework deadline these will then increase to 5 pm.

### Is there a mock exam?

There will be no mock exam after half term due to the coursework commitments. However, this will be scheduled for February 2025.

I would like to remind you that we have some excellent revision guides for the Imedia course which can be ordered on ParentPay for £3.50. Students who have Pupil Premium will be issued a free copy.

### How is work being set?

All work set is available on TEAMS with a reminder of each task recorded on Satchell. Students then submit their coursework tasks on TEAMS. As a result students will have **homework set each week** to complete coursework tasks started in lessons.
